Description
Situating within an established residential area of Filey, this deceptively spacious and extended four-bedroom terraced home offers versatile accommodation arranged over two floors and would be particularly well suited to a multi-generational living arrangement. The ground floor provides an impressive level of flexibility, with a welcoming entrance hall leading to a spacious lounge, separate dining room, fitted kitchen, downstairs WC, and a further lounge with its own kitchen, bedroom and bathroom. This additional accommodation offers excellent potential for dependent relatives, older children or those seeking a degree of independent living within the family home. To the first floor are three further double bedrooms together with a family bathroom, providing generous sleeping accommodation for a larger family. Externally, the property benefits from off-street parking, gardens to the front and rear, and a substantial rear shed providing useful storage or workshop space. The property also benefits from double glazing, gas central heating and leased solar panels, helping to improve energy efficiency.
