About the property

Why we'd buy this home:

There is something reassuring about a house that has been extended properly, not just made bigger, but made better.

At over 2,000 sq ft, this detached chalet-style bungalow gives you genuine space to live in. The open-plan kitchen, dining, and reception room spans over 25 ft and is clearly the engine room of the house. It is large enough for a 10-seater dining table without feeling tight, and with bifold doors opening onto the patio and garden, it comes into its own in the warmer months. You can picture long lunches, children running in and out, and evenings that spill outdoors.

The specification is serious. Underfloor heating runs across the entire ground floor. Two slide-and-hide ovens, a separate tall fridge and freezer, pantry storage, and an induction hob with a gas supply available if preferred. It has been designed by someone who actually cares. The Mega-flo system means no arguments over showers, and the micro-cement finish to the upstairs bathroom adds both style and proper waterproofing.
