Upon entering the home, you are welcomed into an entrance hall that leads to a wood-floored inner hallway with stairs to the first floor. On the left is a generous lounge with a bay window, ornate plasterwork by Hayles & Howe, and a period Carrara marble fireplace with antique tiled insert. Further down the hall is a second reception room, currently used as a dining room, also featuring a period marble fireplace with matching antique tiled insert and statement ceiling rose.

At the rear, a modern kitchen with tiled flooring, a travertine fireplace with Jotul gas stove. The kitchen itself offers granite worktops, integrated appliances, sash windows, and access to a utility room. The kitchen and utility have been refitted and partially rebuilt with quality materials, including bespoke doors and woodwork, and house a recently installed Vaillant boiler (2023). There is also an understairs cupboard for storage.

Upstairs, the landing leads to four well-proportioned bedrooms. The main bedroom includes a feature fireplace, cast iron radiators, and detailed ceiling work. The modern family bathroom, refurbished in 2017, offers a walk-in shower, freestanding bath, and designer fixtures.

Externally, the home has undergone an extensive renovation: the roof was replaced with premium Spanish slate, all sash windows and external doors are new, and the front porch was entirely rebuilt using leaded Florentine glass and traditional craftsmanship. The rear courtyard offers access to a fully upgraded garage with modern insulated and rollmatic doors, new electrics, and wood panelling. The front garden is neatly maintained, complete with a bespoke tiled path and restored railings.
